BOARD OF EDUCATION.

The Regular Monthly Meeting Last Night. The Board of Education met in regu-lar monthly session last night. Present: Messrs. Baird, Cochran, Collier, Fitzsim-mons, Goering, Hastings, Ress, Hildreth, Hupp, Maxwell, Miller, McCally, Scott, Todd, Watkins, Wilson, What. The minutes of the last meeting were

read and approved.

The Committee on Accounts reported bills aggregating \$344 03, which were ordered paid. The Committee on Text Books recom mended that the Clerk of the Board be instructed to purchase eight of Holbrook's eight-inch terrestrial globes, for a sum not exceeding \$96. The Board authorized the Clerk to purchase one globe for each school needing one.

The Committee on Rules and Regula ons, to whom was referred a resolution tions, to whom was referred a resolution to non-residents, recommended for adoption the following amendment to Article 4 of the General Rules:
Strike out all of said article after the word "provided," on page 32, so that it shall read as follows:

shall rend as follows:
Provided, however, that non-residents shall in no case be admitted to, or retained in, the schools of any sub-district, to the exclusion or material inconvenience of resident pupils. Before any non-resident is admitted to sny school of the district, he shall pay for a term of twelve weeks or less at the rate of \$5 each for the D and C divisions; \$6 each for the B and A divisions, and \$8 for the grammar department. No non-resident shall be admitted until he shall present a ticket of admission signed by the local commissioners showing payment of the sum fixed for the division or department to which he seeks admission, and for which he is qualified. He may be expelled for cause, and if his attendance tends to exclude or materially inconvenience resident pupils it may be terminated and an equitable portion of the money paid by him refunded. Money obtained from such non-residents shall be paid to the Collector of the district. Provided, however, that non-residents held March 15, 1877, the Committee on Rules and Regulations, after having the matter under consideration, made a report recommending that the schools open at 1½ o'clock p. M. and close at 4½ o'clock p. M. throughout the year. The Board amended the report so as to make it read 1½ and 4½ o'clock. As the winter approaches and the days get shorter, it will be found that darkness will interfere with the pupils doing school work up to 4½ o'clock. The times recommended by the committee would probably have suited all parties better. It has been represented to this office that an hour and a quarter at noon will best meet the convenience

ent was laid on the table.
As to the consolidation of the gramms As to the consolidation of the grammar chools, referred to the committee, the committee were of the opinion that the out results in the matter of efficiency and economy of the schools by consolidation cannot now be realized for want of puropriate rooms for the purpose, and onsolidation of the grammar schools is t present not advisable.

The report was adopted.

The question is one of great magnitude, involving our whole duty to the rising generation and to the well being of the State.
